**What HAIX wearers had to say:**

*"These are without doubt the most comfortable boots I have ever had throughout four years in the army and seven years as a police officer. I would recommend them to anyone, they are extremely light yet still offer great support."* Simon Brookes, Nottinghamshire Police.

*"This is the first time that I have worn boots which fit very well. There has been no rubbing or blisters on my feet, these boots are very comfortable. I was also surprised at how light weight they are."* Louise Ramsay, Nottinghamshire Police.

*"There is always going to be a compromise between walking duties and driving duties: A good, well supported walking boot will always be too stiff to drive in with any degree of sensitivity, and vice-versa. HAIX seem to have got the balance about right though."* John Goodman, Nottinghamshire Police.
